Sir R.M. Falconer

My dear Sir,

with your many duties I trust you will pardon me if I take a few minutes of your time.

Our daughter, Lillian Chace, got two stars in her 3rd year in Medicine; one in Anatomy of Brain wh she rather feared, & one in Pharmacology wh she did not mention as a doubtful.

Mr Chase & I thot if possible we shd like to get her marks in the latter subject & see wherein her weakness lay.

No doubt there wd be a fee for having paper re-read but shall be pleased to remit same.

Lillian has always been a faithful student thro Public Schools, High School, University, 1st & 2nd class in Medicine &

this is her first failure.
She must have made some
grave errors & we should
be extremely grateful if we
could get full particulars.

Lilian got a nice position
with Dr Porfitt in Calydor San.
Gravenhurst & enjoys her work,
yet feeling terribly over her
failure and we do glad as
her September visit home, to
Nova Scotia will be cut out.

Enclosed please find stamped envelope for reply.

Margaret next younger than Lillian completed her 3rd year in Medicine in Dalhousie taking Honors in two subjects.

Thanking you for past kindness I remain

yours truly

Elizabeth Chase

Mrs O. Chase.
Greenwich N. S.

REPLY TO
PROFESSOR V. E. HENDERSON,
DEPARTMENT OF PHARMACOLOGY

UNIVERSITY OF TORONTO

The President

Dear Sir Robert

In answer to your letter re Miss Chase. Miss Chase failed as she might have expected from the results of her Term marks and oral examinations by a small amount. This she failed to raise in her written paper. I may point out that her standing in two other subjects in which she did not fail was low.

Yours sincerely

Velyien V. Henderson

ADDRESS REPLY
TO DR. E. STANLEY RYERSON,
SECRETARY

University of Toronto
FACULTY OF MEDICINE
TORONTO, CANADA

552

June 24th, 1920.

Pharmacology.....47 x
Clinical Medicine....52
Clinical Surgery.....65
Pathology.....62
Path. Chemistry.....57

Yours faithfully,

E. Stanley Ryerson

Secretary

June 24th, 1920

Mrs. O. Chase,
R. R. 1,
Greenwich, N.S.

Dear Mrs. Chase:

I am sorry that I have delayed so long in answering your letter about your daughter, but this is a very busy time of the year for me and I have had to make inquiries. I regret much to know that your daughter has had two stars, especially as I am sure that she has been a most diligent student.

I have made inquiries and find that the two stars are in Anatomy and Pharmacology by a few marks in each subject, not sufficient to cause her to feel that as she puts good work in she may not write them off in the autumn. In Pharmacology I find her failure is due to the results of her term work and oral examination and that she failed to raise these defects by her written paper. In Anatomy also she was only a few marks below the pass standard.

In Physiology she did well and in Clinical Surgery and Pathology. In Clinical Medicine and Pathological Chemistry she had a pass, but not a great deal to spare. I hope that she will be able to finish her work without any further trouble.

Yours sincerely,

President.
